Story	Description	Points	Assigned To	Sprint	Status	Link to work item	Comments/Description
Requirement Analysis	As a team, we want to understand the requirements so that we can implement a solution	5	Jeyasri, Subarna, Pranav, Wasae	Sprint 1	Complete		
Technology Design	As a team, we want to create a design for the project so that we can implement best design/practices for our solution	5	Jeyasri, Subarna, Pranav, Wasae	Sprint 1	Complete		
Database Design	As a team, we want to create database design for the project so we have a good outline of how to implement our solution	5	Jeyasri, Subarna, Pranav, Wasae	Sprint 1	Complete		
Class Design	As a team, we want to create class design for the project so we have a good outline of how to implement our solution	5	Jeyasri, Subarna, Pranav, Wasae	Sprint 1	Complete		
Basic design for backend	As a team, we want a basic idea for the backend design	1	Jeyasri	Sprint 1	Complete		
Backend Design	As a team, we want to design our api's so that we can build the correct api's for the project	5	Pranav, Wasae	Sprint 2	Triaged		
Setup AngularJS	As a developer, I want to setup the angular framework so that we can setup our frontend framework for the project	2	Jeyasri	Sprint 2	Triaged		
Setup Spring Boot	As a developer, I want to setup spring boot so that we can start writing backend code for the project	2	Subarna	Sprint 2	Triaged		
Setup SQL script	As a developer, I want to create a SQL script to quickly setup the tables in mysql	3	Pranav	Sprint 2	Triaged		
Wireframe	As a team, we want to design our wireframe flow so that we can understand the frontend flow and implement it	5	Jeyasri, Subarna, Pranav, Wasae	Sprint 2	In Progress		Should we move this to the next sprint? Theres like too much to do this sprint...
Setup Infra	As a developer, I want to setup AWS/Docker so that we can host our services	2	Wasae	Sprint 2	Complete	https://github.com/gopinathsjsu/sp20-cmpe-202-sec-49-team-project-themearsquares/tree/feature/infra-setup	
Infrastructure Design	As a team, we want to design our infra so that we can build the correct infra for the project	5	Wasae	Sprint 2	Complete	https://docs.google.com/drawings/d/1o5QIzHn5S8VsiE-cfCeXhqsuKeCkFNHloELyCXvspDQtw/edit	
Setup our GitHub	As a team, we want to setup our github repo and add our members so that we can store our code and collaborate with the team	1	Jeyasri, Subarna, Pranav, Wasae	Sprint 2	Complete	https://github.com/gopinathsjsu/sp20-cmpe-202-sec-49-team-project-themearsquares	
[DUPLICATE] Search Vehicle With Query Params API			Wasae/Pranav				
Notification About Vehicle Return API (part of invoice)							(Subama I gave you this because once the invoice is done, just send an email from there)
OO relationship in models - search on how to do? how the relationship will be mapped to database ? [R&D]							
User Authentication API			Wasae/Pranav				
Registration API			Wasae				
Add Vehicle API			Subarna				admin should be able to add vehicle info to database
Update Vehicle API			Subarna				want to do some fine tune
Get By Id- Vehicle API			Subarna				
Get Vehicle API			Subarna				
Get Vehicle for a fixed VehicleType API			Subarna				
Get Vehicles from a Location Type			Subarna				
Remove Vehicle API			Subarna				
Add Location API			Subarna				* question- any validation?
Get Location API			Subarna				
Update Location API			Subarna				
Remove Location API			Subarna				
Get By Id- Location API			Subarna				
Add User API			Wasae/Pranav				
Update User API			Wasae/Pranav				
Remove User API			Wasae/Pranav				
Add Column Status in renvation table			Pranav				
Add column description to price			Pranav				
Add CreditCard to Customer			Pranav				
Get Price API			Wasae/Pranav				
Add Price API			Wasae/Pranav				
Update Price API			Wasae/Pranav				
Remove Price API			Wasae/Pranav				
Get Damage API			Wasae/Pranav				
Add Damage API			Wasae/Pranav				
Remove Damage API			Wasae/Pranav				
Update Damage API			Wasae/Pranav				
Add Reservation API			Subarna				
Get Reservation API			Subarna				
Get by Id Reservation API			Subarna				
Update Reservation API			Subarna				
Cancel Reservation API with lateFee computation			Subarna				
Cancel Reservation API without lateFee			Subarna				
Invoice computation API (PUT)			Subarna				
Invoice get all API			Subarna				
Invoice get by Id API			Subarna				
Cancel Membership API			Wasae/Pranav				
Renew Membership API			Wasae/Pranav				
Get VehicleType API			Wasae/Pranav				
Update VehicleType API			Wasae/Pranav				
Add VehicleType API			Wasae/Pranav				
Remove VehicleType API			Wasae/Pranav				
Get Employee API			Wasae/Pranav				
Add Employee API			Wasae/Pranav				
UpdateEmployee API			Wasae/Pranav				
DeleteEmployee API			Wasae/Pranav				
Special api to compute the estimated prices for all the available vehicles in a location for all vehicle types			Subarna				
get available vehicle list for a vehicleType Id, location, and non overlapping pickuptime, actualdropOfftime from reservation			Subarna				

Bug Fix		Subarna/Jeyasri/Wasae/Pranav	
Setup front end routing		Jeyasri	
Frontend and backend integration work		Jeyasri	
Save User Session token		Jeyasri	
Login Page		Jeyasri	
Signup Page		Jeyasri	
Profile Page		Jeyasri	
Booking Page		Jeyasri	
Reservation Page		Jeyasri
